## LOCAL PEOPLE HELPING LOCAL PEOPLE

Giving to the United Way is always voluntary - the amount you give comes from your heart. A rule of thumb is to consider pledging your "Fair Share" of one hour's pay per month. In other words, if you earn \$5 per hour, your gift might be \$5 per month. Whatever amount you contribute, however, is needed and very much appreciated - no amount is too small to make a difference.

Since 1988, the United Way idea of community-based fund-raising has helped give hope to local young people looking for leadership to make the right choices; to teens working their way back from wrong choices; to those with mental and physical disabilities who want the opportunity to be productive citizens; to the elderly who want to remain active and independent and to those from all walks of life faced with catastrophic difficulties.
